---

a dedicated Computer Sciences student in my final year at HICIT . As a junior back end developer , I bring a solid foundation in ASP.NET , C# , and MSSQL database technologies.

EDUCATION

El Sherouk Academy

Currently in my fourth level at [SHA], I maintain a GPA of 3.0, showcasing my dedication to academic excellence. My coursework has provided me with a strong foundation in computer science principles, complementing my practical experiences in the world of freelancing.

PROFESSIONAL EXPERIENCE

GDSC_SHA

January 2022 - June 2022

Co-leader, Programming Team

Led collaborative efforts within the programming team to create customized intranet and internal applications, resulting in a 70% user satisfaction rating through efficient development and implementation processes. Qualified the trainee to engage in Competitive Programming.

Art Of Coding Co.

August 2023 - Present

Back-End Team Member

At Art of Coding, I collaborated with my team on the development of the Student Management System, focusing on the design and implementation of Api Controllers and EndPoints.

PROJECTS

Hospital Managment System

ElShorouk Academy

2023

Developed a hospital management system using ASP.NET MVC, incorporating role-based security features, along with a customer-end application to monitor patient healthcare.
